■ Frankfurt am Main, Germany

PROFESSIONAL PROFILE

International health and pharmaceutical professional based in Frankfurt, specializing in commercial management, market analysis, and key account management (KAM). I bring a strong biomedical foundation focused on pharmacovigilance processes, customer loyalty, and personalized care. With demonstrated experience optimizing commercial operations through CRM platforms, I am currently deepening my technical skill set through a specialization in Applied Data Science — building working knowledge in Python and SQL — with the goal of driving intelligent, data-led strategic decisions within the European biotechnology ecosystem.

WORK EXPERIENCE

Specialized Medical Sales Representative Jan 2015 — Oct 2017

Laboratorios Pellier

- **Key Account Management:** Strategic planning, business prospecting, and building trust-based relationships with specialists in Plastic Surgery, Paediatrics, and Neurology.
- **Pharmacovigilance & Clinical Support:** Close technical collaboration with neurologists for safety monitoring and pharmacovigilance of Blastoferon (Multiple Sclerosis treatment).
- **Specialized Training:** Led personalized patient training programmes to ensure correct handling and administration of complex biological medication kits.
- **CRM Optimisation:** Managed, analysed, and integrated transactional data from key clients into CRM platforms to mitigate commercial risk.
